EDUCATION

Hampton University Hampton, VA | Expected Graduation: May 2028
Bachelor of Science in Computer Science (AI/ML) GPA: 3.9

- **Relevant Coursework:** Advanced App Development with SwiftUI *(in progress)*, Artificial Intelligence *(in progress)*, Operating Systems **with C** *(in progress)*, Probability & Statistics *(in progress)*, Calculus-Based Physics *(in progress)*

CodePath Tech Exchange Program Remote | Jan 2026 – Apr 2026

- Accepted into selective, project-based program focused on industry-standard software engineering
- **Relevant Coursework:** Data Structures, Algorithms & System Design with Generative AI, Intro to Software Engineering with Generative AI, Careers in Tech

CodePath AI 301: Open Source Contribution with AI Remote | Sep 2026 – Present

- Building a toolkit of Claude Code skills to facilitate a real open-source contribution during the course

Awards/Honors: Hackathon 1st place (ADMI AI Conference 2026), Full-Ride Academic Scholarship, Dean's List

TECHNICAL SKILLS

Languages: Python, Swift, Java, Kotlin, C
AI/ML: Apple Foundation Models, RAG, embeddings & vector search, Gemini API, Claude Code (skills, plugins, hooks)
Frameworks & Libraries: SwiftUI, SwiftData, Jetpack Compose, Vision, Cloudkit, Streamlit, pytest
Tools & Platforms: Git, GitHub Actions, Xcode, Android Studio, Supabase, REST APIs

WORK EXPERIENCE

Google REACH – SafeGenAI, *Research Assistant* Remote | Sep 2026 – Present

- Collaborating on an interdisciplinary research team spanning CS, cybersecurity, and psychology
- Contributing to literature review on Generative AI security risks, misuse patterns, and responsible use guidelines
- Developing educational materials to teach non-technical audiences how to responsibly and safely use generative AI

Google, *Associate Software Developer Intern* Mountain View, CA | May 2025 – Aug 2025

- Implemented **two new AI-powered user journeys** on **Google's Android XR** team building front-end in **Kotlin/Jetpack Compose** and back-end in **Java** to extend the glasses photography experience
- **Presented and demoed** the features to stakeholders, directors, and senior engineering managers
- Maintained thorough **project documentation** covering research, implementation details, and design decisions

PROJECTS

Claude Code Plugins & Skills | github.com/amierlorenz/skills | github.com/amierlorenz/own-it Oct 2026 – Present

- Published a **Claude Code** plugin marketplace with 3 installable plugins and a set of Markdown skills
- Built **own-it**, a Claude Code plugin that uses **hooks** to keep the developer in charge of planning and decision-making; Claude implements their plan step by step

Archive Buddy | github.com/amierlorenz/archive-buddy Feb 2026 – Present

- Built a private, on-device handwriting OCR pipeline in **Swift** that reads pages with **Apple Vision** and cleans text with **Foundation Models**
- Implemented on-device **RAG** with sentence-aligned chunking (**NaturalLanguage**), **NLEmbedding** vectors, and a separate **SVDB** vector store for each archive

Mieracle Study | github.com/amierlorenz/mieracle-study Sep 2026 – Present

- Built a study app in **Swift** and **SwiftUI** based on learning research that schedules reviews with spaced repetition
- Implemented **on-device AI** with **Apple Foundation Models** for grading short answers and rewording questions
- Synced exam dates daily from the **Canvas LMS API**; synced study data across devices through **iCloud/CloudKit**

Galea Digital | galea-digital.amierlorenz.com Jan 2026 – Apr 2026

- Built a fitness platform with Gemini API integration on a team using peer-reviewed PRs, feature branches, and weekly standups
- Set up **GitHub Actions CI/CD pipeline;** gated deploys behind a **pytest** suite, **catching 10 failing builds** pre-merge
- Conducted usability tests with target users that **surfaced 3 UX defects**; scoped them into tickets and shipped fixes

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Hampton University Swift Academy, *Swift Outreach Scholar* Hampton, VA | Oct 2026 – Present

- Teach Apple's Swift language to K-12 students, teachers, and community groups through Apple-sponsored program

Amazon, *Guides Mentee* Remote | Oct 2025 – May 2026
